Contents

Preface

1 The Historical Perspective
  The original ideas 1
  Concepts of chronic disease 2
  Reactions to the theory 5
  The clinical context 6
  Terminology and development 8
  Modern interpretations 11

2 The Body in Health and Disease
  Normal physiological function 13
  Balance as a prerequisite 14
  The maintenance of balance 15
  Classifications of body functions 16
  The origins of miasms 17
  Chronic disease 18
  A model of ‘dis-ease’ 18
  The multimiasmatic nature of disease 21
  The multimiasmatic nature of the patient
  The effects of treatment 23

3 The Basic Miasms as Clinical Entities
  The immune system as a functional entity
  The creation of miasms 26
  The inheritance of miasms 29
  Diathesis and constitution 31
  Acute and latent miasms 31
  System affinities of the miasms 33
  Natural outlets for miasms 34
  Basic forces in nature 35
Contents
Miasmatic tendencies within the kingdoms 38
Limits of imbalance within the model 40

4 The Newer Miasms
The relationship with the basic miasms 42
A recent interpretation of miasms 44
Other claims to miasmatic status 46
Treatment implications of mixed miasms 48

5 Suppression
The nature of suppression 50
The mental dimension 51
The progress of suppression 53
Miasms in neoplasia 54
Preventive suppression 55

6 Miasms as Therapeutic Tools
Perceptions of miasms 66
Recognising miasms 68
The miasmatic overview 68
The miasmatic progress of cure 71
The mixed miasms 73
Miasmatic considerations in disease prevention
The ‘miasmatic’ nature of challenge 75

7 Psora
Basic concepts 83
The terminology of psora 84
Later interpretations of psora 85
Clinical manifestations 86
Hering’s Law and psora 90
Psora and allergy 91
Antipsoric remedies 91

8 Sycosis
Basic concepts 101
Clinical manifestations 102
Suppression and the reproductive system 105
Vaccination and sycosis 107
Antisycotic remedies 108
Miasms as Practical Tools

9 Syphilis 118
   Basic concepts 118
   Clinical manifestations 119
   The syphilitic miasm and the immune system 122
   Syphilis in combination 123
   Antisyphilitic remedies 124

10 The Miasmatic Nosodes 134
   Psorinum 136
   Medorrhinum 139
   Syphilinum 141
   Tuberculinum 143
   Carcinosin 145
   Scirrhinum 147
   The bowel nosodes 148

Bibliography 155

Index 161
