

TABLE OF CONTENTS

The concept of Source	vii
The structure of this book or how it might be read	vii
Foreword by Harry van der Zee	2
Reflections about this Book by Jan Scholten	4
Preface by Uta Santos-Konig	7
1 - The Source Method	9
2 - Eye and Soul - How it all began	13
3 - Origins and Directions	19
4 - The Discovery of Source Case-Taking as a Systematic Way of Prescribing	21
5 - Goal, Roadmap, Compass and a Way	31
6 - The Ten Levels of Case-Taking	35
7 - Clarification and Amplification	46
8 - Cases and Essences	48
1. Positronium - From the All-One into Duality (Case)	51
2. Hydrogen (Essence)	65
3. Helium - In Between To Be or Not To Be (Case)	67
4. The Sun, Sol or Helius - the Life of a Star (Essence)	85
5. Radium bromatum - From the Black Hole into Blinding Light (Case)	92
6. Plutonium nitricum (Essence)	111
7. Meteorite (Essence)	116
8. Granite (Essence)	119
9. Marble - Lifeless, Like a Stone (Case)	123
10. Water (Essence)	132
11. Geyser (Essence)	134
12. Lava - Inner Systems (Case)	138
13. Opal inside the Volcano (Essence)	150
14. Diamond inside the Volcano (Essence)	152
15. Graphites - Dead and Not Dead After All (Case)	154

TABLE OF CONTENTS

16. Carbo mineralis - Finding Peace Within (Case)	159
17. Petroleum crudum - Trapped in a Claw of Force (Case)	165
18. Gasoline (Petrol) (Essence)	177
19. Tar/Pix liquida - A Viscid Mass That No Sun Can Penetrate (Case)	179
20. Iron (Essence)	183
21. Brass - Fake and Genuine Coins (Case)	186
22. Gold (Essence)	196
23. Strontium silicatum - I Wish That I Didn't Need My Skin to Understand What I Would Like (Case)	200
24. Spongia tosta - The Cold Hole Where Order Was Destroyed (Case)	215
9 - Source, Resonance, Healing and Personality	237
10 - The Importance of the Source in Homoeopathy	245
11 - Of Learned Ignorance	249
12 - A Short History of the Long Development of the Universe	
Introduction	251
About the development of the universe	253
About the fundamental forces of space	254
About the basic physical qualities of space	256
The uncoupling of light radiation	260
The sun: the life of a star	261
A supernova: the forge of all further development in space	265
Earth	267
Afterword	272
Dedication	273
literature References	277
Index	280
Curriculum Vitae	282
